

# Clean Power Plan: Development of Colorado's State 111(d) Plan All Stakeholder Meeting Agenda

Thursday, January 14, 2016

6:00-9:00 PM (Commerce City Civic Center, Council Chambers<sup>1</sup>)

## MEETING DETAILS

This meeting will be webcast live. For materials related to this or future meetings:

- visit <https://www.colorado.gov/cdphe/CleanPowerPlan> or
- submit questions or comments to [cdphe.commentsapcd@state.co.us](mailto:cdphe.commentsapcd@state.co.us)

**FOCUS** - Urban community concerns and the Clean Energy Incentive Program (CEIP)

## PURPOSE

1. Provide a brief update on Colorado's status in developing our State 111(d) Plan.
2. Moderate panel discussion on urban community concerns and the CEIP.
3. Solicit and listen to stakeholder comments on the Colorado's State 111(d) Plan. Note that CDPHE will not be responding to comments during this public comment session.

## DESIRED OUTCOMES

By 9:00 PM tonight,

- A. Clearly understand CDPHE's schedule for developing Colorado's State 111(d) Plan.
- B. Identify key urban community concerns around the CPP.
- C. Gauge community interest in participating in the CEIP.
- D. Receive public comment on the development of Colorado's State 111(d) Plan.

## AGENDA

6:00-7:45 PM

- Introduction: agenda review, ground rules, today's public comment process, and announcements.
- Presentation: CDPHE process for developing Colorado's State 111(d) Plan.
- Moderated Panel<sup>2</sup> Discussion: Panelists will provide a brief overview of their respective roles and responsibilities within the communities they represent. A moderated panel discussion will follow during which panelists will respond to specific questions about those communities, and questions and concerns about the CPP and the CEIP. Panelists may also respond to questions from the audience, time permitting.

---

<sup>1</sup> See attached map.

<sup>2</sup> See panelist bios on back.

Panelists:

- Jennifer Gremmert - Energy Outreach Colorado, *Deputy Director*
- Ravi Malhotra - International Center for Appropriate and Sustainable Technology (ICAST), *Founder and President*
- Christine Alonzo, Colorado Latino Leadership, Advocacy and Research Organization (CLLARO), *Executive Director*
- Peter Narog- Xcel Energy Inc., *Market Research and Policy Manager*
- Doug Hargrave- Iconergy, Ltd., *President*

15 Minute Break

8:00-9:00 PM

- Public Comment: in-person attendees will have **3** minutes each, to provide comment to CDPHE. Speakers who registered in advance via the web will comment first.
- Meeting Wrap-Up: next steps on this process.

**NEXT MEETING(S)** - *watch website (@ above link) for details*

**January 27, 2016, 5-8 PM - Brush School District Auditorium**

CDPHE will hold a community-based CPP meeting open to the public.

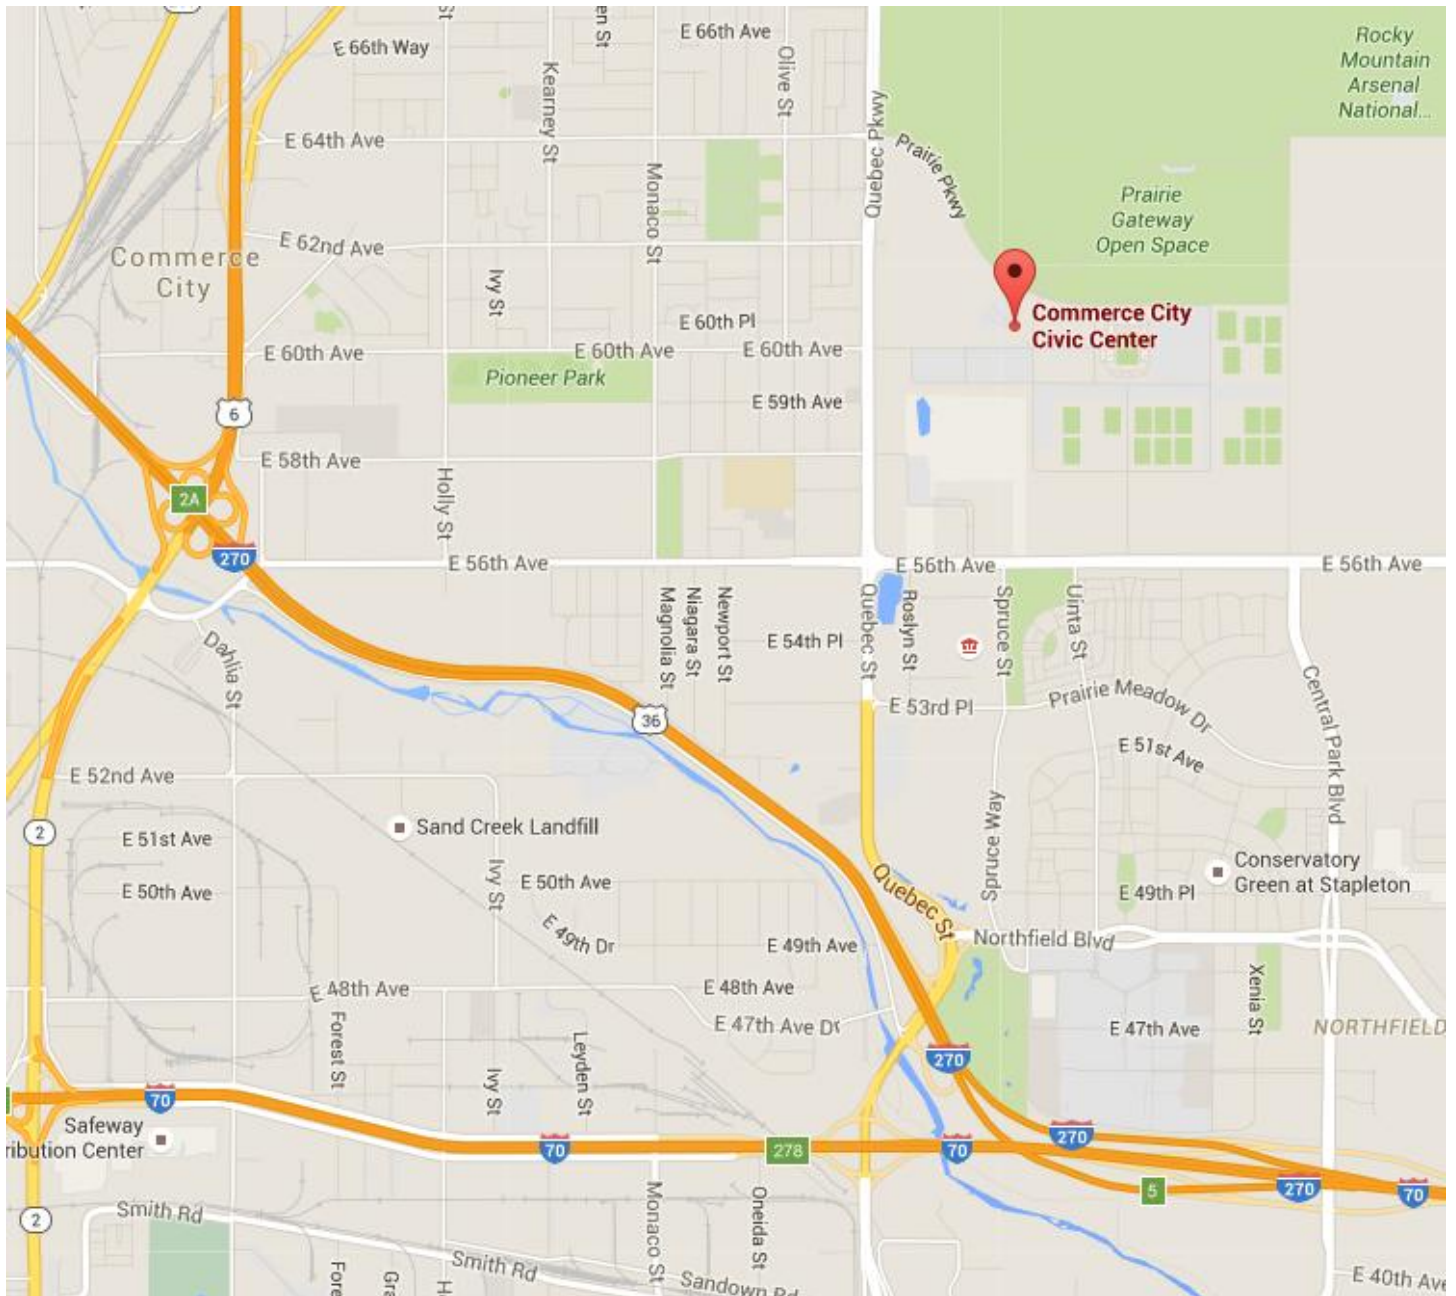

**February 22, 2016, 8:30-11:30 AM - CDPHE**

## Panelist Bios

### Jennifer Gremmert

Jennifer Gremmert is Deputy Director of Energy Outreach Colorado, a 501(c)(3) non-profit that raises funds to help thousands of low-income Coloradans afford home energy and remain warm and safe in their homes. Jennifer is responsible for all program management and advocacy activities for the organization. Previously, Jennifer worked for numerous nonprofit organizations including Urban Peak, a shelter for homeless youth, the national office of Junior Achievement in Colorado Springs, Up With People, the University of Arizona and the University of California system. Jennifer received her Masters of Nonprofit Management from Regis University and her undergraduate degrees in Economics and Political Science from the University of Arizona. She currently serves on the Advisory Board for the National Energy and Utility Affordability Coalition and on the Governor's Commission on Low-Income Energy Assistance in Colorado.

### Ravi Malhotra

Ravi Malhotra is the Founder and President of the International Center for Appropriate and Sustainable Technology (ICAST), a 501(c)(3) non-profit organization that develops and implements market-based

Health & Environment

solutions for issues that plague underserved communities. ICAST's projects promote sustainable community development by creating social enterprises in the clean energy and resource utilization space. Ravi has 27 years of experience as a social entrepreneur and engineer. He has led award-winning research and development (R&D) efforts and has successfully launched eight new social ventures in the US, India and Africa using sustainable technologies. Ravi is currently focused on providing turn-key solutions for the green rehabilitation of multifamily affordable housing properties through two nonprofit ventures: Triple Bottom Line Foundation ([www.tblfund.org](http://www.tblfund.org)) - a community development financial institution (CDFI) that provides financing, and ResourceSmart ([www.resourcesmart.org](http://www.resourcesmart.org)) - that provides design, development, planning and construction services. He holds a Bachelors degree in Engineering from the Indian Institute of Technology-Delhi, India, and a Masters' in Engineering and Business Administration from the University of Texas at Austin.

## **Christine Alonzo**

Christine Alonzo is the Executive Director of the Colorado Latino Leadership, Advocacy and Research Organization (CLARO). CLARO is Colorado's premier leadership development, public policy, and research center dedicated to strengthening Colorado's Latino community. Christine was born in Las Vegas New Mexico; she came to Colorado in 1988. She has three children and a 5 year old Granddaughter. Christine has always been very active in the community serving on several different boards; and spent many years as a union member and also working in that industry. She is also the former President of the League of United Latin American Citizens (LULAC) Council #3043 in Pueblo Colorado, and the former Vice President of the Labor Council for Latin American Advancement (LCLAA) Denver Chapter where she served for 4 years. As a former Executive Director for the Pueblo Human Relations Commission and Executive Director for American Federation of State, County and Municipal Employees (AFSCME) in Southern Colorado, she comes to us with a wealth of experience in Labor and Community Advocacy. She has committed more than 25 years to working with the community and will continue on that journey through CLARO. Christine is an avid Rockies fan and is a former softball player herself. She will often be found spending time with her children and granddaughter, she also loves cooking breakfast on Sundays while listening to Cancion Mexicana.

## Peter Narog

Peter is currently the Manager of Market Research and Policy at Xcel Energy, Inc. a US investor-owned electricity and natural gas company with regulated operations in eight Midwestern and western states. In this role, he is responsible for overseeing the company's research efforts in areas such as customer satisfaction, new product development, benchmarking, segmentation, and communication effectiveness. Peter's team also leads public policy analysis and planning regarding Xcel Energy's customer programs such as energy efficiency and demand response. Regarding the Clean Power Plan, his team leads the analysis related to energy efficiency and has been involved since the draft plan was released in 2014.

Peter has been with Xcel Energy for 20 years. He has managed residential, income-qualified, and business energy efficiency and demand response programs himself as well as led teams responsible for implementing these programs across Xcel Energy's eight-state service area. Peter has also led efforts to develop and manage the company's energy efficiency and demand response strategic planning and public policy initiatives.

## Doug Hargrave

Doug Hargrave is the President of Iconergy, Ltd., a company comprising experienced energy engineering and design build professionals. Doug's energy management and sustainability work began in the mid-1990's as a

Department of Public  
Health & Environment

junior engineer working with the pioneers of the industry. Through his work on public policy, government and utility programs, and individual projects Doug has experience in all facets of energy management and sustainability as it applies to the commercial and industrial sectors. At Iconergy, Doug shapes programs and projects by developing and refining goals and directing performance from both a technical and program/project management perspective. In addition, Doug manages select technical programs and projects including government (federal, state, local) and utility energy efficiency programs, diversified energy management programs and projects for large commercial and industrial entities, and performance contracts. He holds a Bachelors in Mechanical Engineering from Washington University in St. Louis as well as a variety of industry designations, including being an International Organization for Standardization (ISO) 9001 Internal Auditor and a Leadership in Energy and Environmental Design Operations and Maintenance Accredited Professional (LEED AP O+M). In his free time, Doug enjoys exploring Colorado with his wife and their two children.
